M5 Junction 25 Improvement Scheme
Project Newsletter: January 2021

Toneway

Since December, we have dressed the verges with topsoil, installed concrete watersheds to the lighting columns on the outbound carriageway and continued and completed traffic signal works.

Upcoming works:

- Install watersheds on columns on inbound carriageway
- Finish dressing the verges
- Final street lighting works

Blackbrook Bridge

Since 18 January 2021, all A358 traffic has used the new Nexus Link Road to access Taunton, the Junction 25 Roundabout and when heading towards Henlade/Ilminster direction.

Traffic is running smoothly and we are pleased to see vehicles using the new Link Road.

New Link Road

We have installed crash barriers on the cental reservation and around the new bridge whilst continuing to trim and dress the verges.

Traffic signs and lighting columns are now installed along the new Link Road including new electric supplies for CCTV, lighting and Highways England communications.

J25 Gyratory

Verges on the roundabout have now been dressed and the footpath on the south inner roundabout has now been completed.

We are continuing traffic signal works and have completed fitting the crash barriers.

High friction surfacing, to reduce the risk of skidding, and white roadmarkings have been laid.

Drone footage: watch our latest update

Our latest drone footage is available on our project pages at Griffiths in the Community website
